

Technical Information

Experimental XUS 60946.01 Experimental Polyethylene Resin

Overview XUS 60946.01 Experimental Polyethylene Resin is a polyethylene resin designed for general purpose film applications. This resin contains 100% post-consumer recycled plastics. This grade is non-food contact compliant. It is not designed or intended for regulated applications including food, personal care, medical and pharmaceutical.

Physical	Normal Value (English)	Normal Value (SI)	Testing Method
Density	0.920 g/cm ³	0.920 g/cm ³	ASTM D792
Melt Index (190C, 2.16Kg)	0.5 g/10min	0.5 g/10min	ASTM D1238

Additional Information

Legal Statement

This product is not approved for preparation of packaging components that will be in direct contact with food, beverages, animal feed, seeds for producing food or animal feed, or other materials that will be utilized to manufacture primary packaging components for these applications. Dow reserves the right to review applications utilizing post-consumer recyclable (PCR) materials. Customers are requested to complete a PCR Application Screen Form prior to sampling or sales. Please contact Dow representative for details.

Notes

These are typical properties only and are not to be construed as specifications. User should confirm results by their own tests.

Product Stewardship

The Dow Chemical Company and its subsidiaries ("Dow") has a fundamental concern for all who make, distribute, and use its products, and for the environment in which we live. This concern is the basis for our Product Stewardship philosophy by which we assess the safety, health, and environmental information on our products and then take appropriate steps to protect employee and public health and our environment. The success of our Product Stewardship program rests with each and every individual involved with Dow products — from the initial concept and research, to manufacture, use, sale, disposal, and recycle of each product.

Customer Notice

Dow strongly encourages its customers to review both their manufacturing processes and their applications of Dow products from the standpoint of human health and environmental quality to ensure that Dow products are not used in ways for which they are not intended or tested. Dow personnel are available to answer your questions and to provide reasonable technical support. Dow product literature, including safety data sheets, should be consulted prior to use of Dow products. Current safety data sheets are available from Dow.

Medical Applications Policy

NOTICE REGARDING MEDICAL APPLICATION RESTRICTIONS: Dow will not knowingly sell or sample any product or service ("Product") into any commercial or developmental application that is intended for:

- long-term or permanent contact with internal bodily fluids or tissues. "Long-term" is contact which exceeds 72 continuous hours;
- use in cardiac prosthetic devices regardless of the length of time involved ("cardiac prosthetic devices" include, but are not limited to, pacemaker leads and devices, artificial hearts, heart valves, intra-aortic balloons and control systems, and ventricular bypass-assisted devices);
- use as a critical component in medical devices that support or sustain human life; or
- use specifically by pregnant women or in applications designed specifically to promote or interfere with human reproduction.

Dow requests that customers considering use of Dow products in medical applications notify Dow so that appropriate assessments may be conducted. Dow does not endorse or claim suitability of its products for specific medical applications. It is the responsibility of the medical device or pharmaceutical manufacturer to determine that the Dow product is safe, lawful, and technically suitable for the intended use. **DOW MAKES NO WARRANTIES, EXPRESS OR IMPLIED, CONCERNING THE SUITABILITY OF ANY DOW PRODUCT FOR USE IN MEDICAL APPLICATIONS.**

Disclaimer

Dow's formulated PCR resins contain varying content of post-consumer recycled content depending on the grade and intended application. Since the post-consumer recycled plastics is sourced from various sources, they are subject to inconsistencies. Dow monitors the quality of the incoming post-consumer recycled feedstock as well as the quality of the final product to ensure that the properties of the final product is consistent. Data provided in the technical datasheet is based on the information available at the time of issue. Dow doesn't make the final product and this data doesn't necessarily amount to legal binding promise to the quality of the final product and converters are responsible for taking all necessary precautions to ensure that recycled resins are safe for the intended use and meet the performance requirements of the intended application.

This resin is not designed or intended for regulated applications including food, personal care, medical and pharmaceutical. **NO WARRANTIES ARE GIVEN; ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY EXCLUDED.**
