TECHNICAL DATA SHEET

Product Name: **Film Grade**

Product Grade: **PPH-F03D**

Product Description:

The product is characterized by appropriate MFR range and isotactic sequence. The research and development of this product mainly focuses on the high-speed and ultra-thin BOPP production. It boasts good film-forming performance, high transparence and good stiffness, which is applicable to all kinds of BOPP production processes such as Bruckner, DMT, Mitsubishi, etc.

Physical Properties:

Typical performance index (Not Warranted Value)

Item	Unit	Quality Index	Typical Value
Melt Flow Rate	g/10min	3.0±0.3	2.8
Tensile Stress at yield	MPa	≥28.0	30
Isotactic Index	%	≥96.5	97.2
Ash	%	≤0.03	0.02

Product Characteristics:

- good film-forming performance
- high transparence
- good stiffness

Manufacturer:

Sinopec Jiujiang / Jingmen/ Qingdao/ Wuhan Refinery

Typical Applications:

BOPP is mainly used in the production of high-stiffness. High transparency packaging film. It is also widely used in the production of printing and laminated film, Matt film, pearlized film, synthetic paper, cigarette film, etc.
